

Activity Participation Waiver

SIGNED WAIVER | Version 1 | Sep 9, 2026, 12:00 PM UTC

Participation and acknowledgement

This demonstration document shows the compact signed waiver layout. It is a design preview and is not a signed agreement.

Activity details

- Activity: supervised training session
- Location: Sample Fitness Studio
- Participant: Alex Morgan

Your published waiver wording is preserved in full. The participant signature follows the waiver text directly, with automatic page breaks only when the content needs more space.

Waiver version	v1 of "Activity Participation Waiver"
Version content SHA-256	aaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaa aaaaaaaaaaaaaaaaaaaaaaaaaaaaaaaa

Electronic signature consent

The signer affirmatively checked a consent box presented with the following exact text before signing:
"I agree to sign this demonstration document electronically."

Document integrity / SHA-256

Pre-stamp document hash:
2c84cac98b0c551127837bb775c02541
2956710c8f8c2bb4562be2014ce7a7d5

This SHA-256 hash was computed over the rendered document and stamped into this footer; the hash of the final stored file is recorded in the signing system's database at signing time. Recompute the SHA-256 of this file and compare it with the database record to verify integrity.
